Our Monitoring Center

When you press the Medical Alert button, the system automatically and instantaneously contacts our US-based Medical Alert Monitoring center.

Our agents are trained and prepared to respond to any emergency around-the-clock, 24 hours a day, 365 days a year.

Once connected, our EMT-certified agents will answer the call, with your Personal Profile already on their computer screen. They know who you are, and where you are located.

We immediately check on your status and, in the event of an emergency, dispatch your local EMS. We then contact the people on your emergency list including neighbors, family members, loved ones, care givers, or anyone you designate.

- Based in USA
- Trained in medical dispatching
